

MORNING APPEAL.
THURSDAY.....JANUARY 3
PEOPLES PARTY PLAT-
FORM.

The following address to the people was unanimously adopted by the St. Louis conference:
 The National Committee of the Peoples Party sends greetings to its constituency throughout the United States.
 The rapid increase of our vote in every part of the Union and the starting events of the past two years vividly justify the existence of and necessity for the Peoples party. The contention of the party that one of the great needs of the country has been and is an enlarged volume of circulating medium is now practically conceded by all parties and by the Government.
 The gold power and banking interests are insisting through the President and his secretary of the Treasury that the enlarged issue of our money supply shall be given exclusively into the hands of the bank; that silver shall be excluded, all treasury notes retired, and that gold alone shall be a legal tender, thus making the monetary question an issue that must be made at once.
 Within the present year the corporations, grown arrogant because of the vast possessions of wealth and the exercise of unconstitutional powers, have made war upon the people and induces the Federal courts to exercise in their interest unusual and arbitrary powers induced the invasion of the States by Federal troops without the request of either the Executive of such States or the Legislature thereof, and are at this time through a recent Administration and a recalcitrant Congress, attempting to create railroad corporations, by means of a polling bill, with a power to interfere and more systematically rob and plunder the people, and having thereby deprived the people of access to the silver mines of the country as an independent source of money supply. We now, in the interests of banking integrity, endeavor to deprive them of the right to have their Government, in the exercise of its constitutional power, issue the money of the nation and control its volume.
 In our opinion of your committee, the measures are that of, substitution of the liberties of the citizen and destruction of business and social security; and, adding to the Omaha platform in all its integrity, your committee stands in the resolve that the currency of gold and silver as it existed prior to 1873—at the rate of 10 to 1—shall remain the sole and only money that shall be issued by the government without the intervention of banks of issue, the same to be a full legal tender.
 We do declare our independence of all future issuance of interest bearing bonds.
 We announce the passing bill as moves and compelling the monopoly of transportation, and demand that the Congress proceed to bring the railroad boards under government ownership.
 The following Congress by the Constitution, we provide for the calling forth of the militia to execute the laws of the Union, to suppress insurrections, to repel invasions, to defend against the Government in the knowledge of a standing army to aid our policies in the oppression of the public and to its employees. When these men rush into the service it shall be to strike for liberty, not to defend against the oppression of the poor. We ask the people to fight to all past political differences and to stand with us in a common purpose to rescue the Government from the hands of the monopolists and control it so that it shall be able to pay the people's debt by curtailing their privileges, and to secure the rights of transportation, free press and trial by jury—all rules, regulations and procedures which are arbitrary, unjust and oppressive and to be created by a free people.
 We recommend the immediate organization of a national campaign by the National State and local committees.

THE NEW YEAR.
 1894 opens auspiciously for the country and from all sections of

the United States comes reports of better business, and an increase of public confidence. Money is easier than a year ago and trade more active. This however, is merely a comparative estimate as made against the terrible slump in values and business over a year ago.
 It is by no means what one can properly designate as good times. It is merely a sign that the worst has passed and that we are not so badly off as we have been or might be. One of the reasons of a brightness in the outlook is the prospects of a change in our currency laws. The silver question is the live question now and the public are getting better and better acquainted with it. The very men that assisted most in keeping silver under the fan of National legislation, now realize that the deplorable condition of the country is a little more than they bargained for and they are now ready to assist in the undoing of their own work.
 They change their views because it is a matter of business to do so. Hard times and a scarcity of money is good for the bankers who have a corner on money, but these people have finally discovered that too hard times and a scarcity of money is not to their advantage. The present Congress may conclude to bow to the will of the people and by passing a free coinage bill give us good times. If they neglect the opportunity the people will give us relief in '96.
 It is said that the population has increased faster in the town of Taylor than in any other town in White Pine county. The increase has been in the neighborhood of ten per cent during the past year.

QUICK TIME, CHEAP RATES
 Daily Express and Passenger trains make prompt connections with the several railroad lines in the area.
 Pullman Palace Sleeping Cars and tourists' sleeping cars attached to all trains. Dining Cars attached to fast mail trains between Berkeley and Ogden.
 Tickets sold, sleeping car berths secured, and other information given on application to
